

MIRACLES DO HAPPEN!

Live the Life You've Earned and Say "WOW" Every Day!

Breathtaking views everywhere you look on a country estate. A half-mile private lane leads into a secluded and secure valley hidden within hills and cliffs. Drift gently to sleep in your own **tranquil nature preserve** and wake to the sounds and sights of meadow, streams and woodlands that have been managed for decades to promote native hardwood trees, wildflowers and wildlife. Relax under the gazebo beside one of two ponds.

Two well-maintained homes say comfort and tasteful quality. Each home has at least four bedrooms and two or three full baths. They vary in other amenities that include brick, oak and cedar features, solid-wood floors, central vacuum, cozy fireplaces, geothermal heat/AC, cedar closets, screened or screened porches that overlook beautiful perennial gardens, ponds, and a stream that runs the length of the main valley.

Asking Price: \$3,250,000
